

GENERAL DETAILS

Type	: C20 series mini coil (TORK solenoid valve)
Voltage	: 220 VAC, 240 V AC, 110V AC, 24 VAC, 12 VAC, : 50Hz / 60Hz
Voltage tolerance	: 110 V DC, 24 V, 12 V DC, : +/- 10-15 AC , +/-5 -10 DC %
Coil power	: 6..8,5 VA for AC : 5,5W for DC
Protection class	: IP 65
Coil wire insulation	: Class H max. 180 ° C
Body material	: Non-flammable plastics industry
Operating ambient temperature:	: -40 to 80 ° C
Electrical connection	: with socket, 3-pole (phase, neutral and ground)
Suitable socket:	: Socket C85 series type standard applied
Usage	: Coil must not be idle energy, should be energy while on the valve Coil ground should be performed in terms of safety.
